PROFESSIONAL EXPERIENCE

Bitquark inc

Back-End Developer. August-September 2024

Nanoglow E-commerce

- I implemented database migrations using Sequelize, ensuring the correct updating of schemas without data loss.
- I developed input validations in the authentication system and product forms.
- I integrated token-based authentication systems and secure session management.

Me Services Ti Monterrey

Full-Stack Developer & Technical Support.

September 2025 – Present

- Design and develop full-stack web applications using React, Node.js, and SQL Server to automate internal and client processes.
- Build and maintain RESTful APIs for integration with CONTPAQi systems.
- Develop custom modules and reporting tools connected to SQL Server databases.
- Collaborate directly with clients to gather requirements and deliver tailored software solutions.
